

United Nations Universal Declaration of Human Rights Demystified

For a lot of people around the world they don't give much thought to the UN's [Universal Declaration of Human Rights](#). Most people just assume that the UN will intervene and send "Peace Keepers" into Countries when there is a clear pattern of violations of Human Rights being done to the people by the Government or rogue state situations. The UN is not limited to where it needs to go to ensure human rights are maintained, member or not the UN is a Peace Keeping force as a check and balance against those who would commit genocide and other gross violations of human rights. In concert with this is the International Criminal Court in The Hague, which prosecutes those who commit atrocities against humanity. It is all based upon

rule of law and for the majority of the world the UN goes unquestioned as to its role and agenda. Because the intervention power rests in the UN Security Council and 6 member states have a veto on any actions in terms of all actions that the UN can take, the UN is simply being used as a means to create regime changes that the ruling elite want, rather than upholding the Universal Declaration of Human Rights (UDHR). *As a side note do you see the crocodile in the above picture, which represents the two crocodilians that rule over this planet?*

Sadly very few people ever take the time to read the UDHR for if they did they would discover that the UDHR is absolutely meaningless as all the power of what is determined to be human rights actually resides with the each individual State, member or non member of the UN. Section 29 of the UDHR states the following:

(3) These rights and freedoms may in no case be exercised contrary to the purposes and principles of the United Nations.

They put this right near the end of the document as most people who read the UDHR never bother to read the whole thing and if they do come across this, most people never investigate what the documented purposes and principles actually are. To find out what the Purpose and Principles are you need to read [Chapter 1 of the Charter of the United Nations](#). Article 2 section 1 states the following:

The Organization is based on the principle of the **sovereign equality of all its Members**.

What they are saying is that all member states are sovereign not the people; I don't suspect you are holding a membership card to the UN are you? The people or rather humans are not sovereigns, but commoners under serfdom. Where does it say that, you ask? It states it in the Preamble of the UDHR in the second paragraph of the UDHR.

Whereas disregard and contempt for human rights have resulted in barbarous acts which have outraged the conscience of mankind, and the advent of a world in which human beings shall enjoy freedom of speech and belief and freedom from fear and want has been proclaimed as the highest aspiration of the common people,

If you have common people then you must have ruling people and the elite. Further it is only by Rule of Law that the UN operates to protect the commoners. The third paragraph of the UDHR states:

Whereas it is essential, if man is not to be compelled to have recourse, as a last resort, to rebellion against tyranny and oppression, that human rights should be protected by the rule of law,

So if member states are sovereigns they are under no obligation to follow the UN Charter as they are indeed sovereign. Thus the Rule of Law is determined by those who rule the Countries. The Society takes precedence over the individual as per Section 29 verse 2 of the UDHR:

(2) In the exercise of his rights and freedoms, everyone shall be subject only to such limitations as are determined by law solely for the purpose of securing due recognition and respect for the rights and freedoms of others and of meeting the just requirements of morality, public order and the general welfare in a democratic society.

Thus your rights and freedoms just explained in the UDHR can be taken away from you as an individual if your rights and freedoms as explained above are deemed in violation of "others" within the democratic society. This is why Tyrants will have elections and only place themselves on the list to vote for as if anyone votes he becomes democratically elected and rules over the society. The Red Party in China is much like this wouldn't you think. So what they are saying is that they can give you

human rights and just as easily take them away and it is the ruling elite that get to determine what is moral, orderly and for who's welfare of the society that you don't get to have your human rights. Further all law is written in the language of Legalese, which by Blacks Dictionary 7th edition states Legalese is a Jargon. If you look up the definition of Jargon in Webster's Dictionary you will discover that it says Jargon is an unintelligible language. Law is only interpretable by the Law Society residing within the Country or State, not the Commoner.

This brings me to the point that they make use of the word Human. Human actually in means the color of man. The UDHR does not apply to man and never has as man is a creation of God and holds dominion over all the earth as per Genesis 1:26-28 of the Holy Bible. Dominion means to rule, thus man is not under any authority or laws other than their own. The Torah means The Law and is comprised of the first 5 books of the Bible. Any acknowledgement that you are anything other than a Man in terms of Law means you are not protected by the Law. Thus to make use of the UDHR as a document to defend your "Human Rights" means that you are contracting with the UN as being a Human and not Man; thus they are free to enslave you in any way or matter they wish or simply destroy you as chattel property of the state.

There is one other aspect to this in that all law exists in a world of fiction and thus in truth you are a kind of life and you hold the right to exist and coexist with all life, because you are here. If you did not have this self evident right to exist, you would not be here. The truth shall set you free. Genesis was written by MOSES a name not a man. Thus again all law is contained in fiction law does not exist in truth. As for property rights, no one can claim ownership over anything because it is only through the use of fiction, via name or title that we can attach ownership. Thus there can be no truth in fiction and thus property ownership is a fraud. The idea of money also means to put value on something. How do you determine true value of anything? You can't and further everything that has been created in the Universe was not done by you, thus you can not state a claim of ownership over anything. God created man as his equal if you read Genesis 1:26-28 carefully you will see that God was present in the image and likeness of man. Thus man is in part God, which is why man is not subject to laws.

Okay back to the member states. The UN is based upon the world of fiction not truth. In fact it buys into the idea that someone had the authority to divide the earth up into countries, where in truth no one has the authority to do that. Authority is a hoax and the perpetrators can only point to fiction to justify that they have authority over others. It is a stage play in that the actors take on roles and try to get you to believe that you are one of the characters in their play. They make use of names and titles. The simple idea that you own a name is untrue as you cannot own something that does not exist in truth, where is this name. But they are always asking, "What is your name?" in that you are the name and not man. If you do not know that you are man or a kind of life, then you enter their world of fiction by use of a name as the names are the pieces that they play with in fiction. Another trick I have heard is that they ask, "Are you this person?" They want to get you to admit that you are not man, but some form of fiction so that they can have their way with you. Because people are conditioned from birth to believe in all this fiction reality, they never question it and thus perpetuate their own enslavement or worse. The Birth Certificate is playing card in this horrific game and people gleefully fill it out thinking that they have to do it. How can you belong to a Country or Society if it does not exist in truth? As a side note you will notice that the word Country is not used, but the word State. Perhaps they use the word State because not all States are Countries, such as CANADA, UNITED STATES OF AMERICA, and AUSTRALIA etc.

Some people have taken the UDHR to the level of actually doing an Acceptance for Value on it and sending it into the UN as a means of securing their rights and freedoms as a Human Being. Can you see the fallacy in that now? By doing an Acceptance for Value or quoting the UDHR as a form of law which

the State must adhere to, you are confessing to be a Human, Commoner and Subject of the State and UN, with no inherent individual rights or freedoms, thus you become the property of the UN and State. Law is Contract and you if you agree to their Contract, the UDHR then you agree to be a slave or worse.

As I mentioned in the beginning few people bother to investigate law. Law exists in fiction and it cannot apply to life or man in truth. Many people do not realize as well that by making use of Constitutions and laws of any State or Fictional entity they are complying and contracting with that entity and thus a slave to it. Freedom comes from unconditional love and Law comes from fear and fiction. It really comes down to this and being conscious of what you are doing and the consequences of putting yourself under Law.

Drama unfolds as the actors play their roles in trying to trick others into believing in the world of fiction so that they can parasitically draw the life force energy away from those tricked to feed to the energy of the story teller. It is an illusion of massive scale, but can be brought down simply by knowing and consciously staying in truth. Truth always leads to healing and love. In truth Love is God and we are love. It is by the imagination and drama that we put ourselves into a box of limitation and slavery as stated in Section 29 of the UDHR in that our rights and freedoms are limited to the needs of the society, thus the Puppet Master in fiction.

Finally what is found inside the Meditation room of the UN?

“But the stone in the middle of the room has more to tell us. We may see it as an altar, empty not because there is no God, not because it is an altar to an unknown god, but because it is dedicated to the God whom man worships under many names and in many forms.”

If you look in Genesis 1 you will find that God never said to worship him as God is part of man in all of creation. The box his here because the objective of fiction is to keep your mind locked within a box so that you, the slave do not see that you are free.
