

Enslavement via Taxation Using the Illusion of Debt to Control Nations:

The info below is copied from its source at [ISDA \(International Swaps and Derivatives Association\)](#) - we did not make this up.

The excerpt below is from an article posted at this link, <http://www.marketoracle.co.uk/Article33140.html> and we wish it was mandatory reading for everyone!

It starts out a little technical, but if you gloss over the technical stuff you will get to one fascinating conclusion. **If banks can simply "give" each other over \$32 Trillion - that's definitely a "T" - Trillion in the year 2011** alone, simply by "forgiving each other's debts" and "self-approving" the process via their very own (*themselves*) regulatory body called **ISDA**, then it must surely be getting clear to even the thickest heads, that banks are genuinely corrupt, and their primary business is not to make money in the form of "profit", but to use the free money they literally 'make', a.k.a. - print (*at our expense mind you*), **as a tool to control and manipulate entire nations.**

Its called enslavement via taxation, and it actually works best in so-called "free" countries like America, Britain, France, etc., where the delusional citizens have become addicted to maintaining their blind faith in such nonsense as democracy, freedom of speech, capitalism, free enterprise, patriotism, etc., not because any of those fantasies are actually true, but simply because it would be really nice if they were (- *but they're not*). The pretence of those "ideals" are merely the benefits package offered to the citizen/slaves by the money masters.

It's the cost of doing business - keep happy slaves because it's easier than keeping miserable ones. Tell them they are free, living in a democracy, enjoying capitalism, can speak freely, and proud to be patriots - they will believe all of these nice things, because they are nice, not because they are true - they're not. They are idiots and idiots believe nice things. Organize and manipulate their governments, elected from within the great pool of idiots, so that these elected idiots will administer programs that appear to support these great ideals, and the result is the greatest illusion in man's history.

"Whoever controls the volume of money in our country is absolute master of all industry and commerce...and when you realize that the entire system is very easily controlled, one way or another, by few powerful men at the top, you will not have to be told how periods of inflation and

depression originate.” – President James Garfield, 2 weeks before his assassination. (Surely it’s just coincidence - and of course it’s also just coincidence that both Lincoln and Kennedy were assassinated shortly after announcing they wanted to take the money printing control away from the banks and give it back to the governments of the people for the people, rather than leave it in the hands of the banks for the banks at the expense of the people.)

Most people in the United States (*and elsewhere*) have long suspected that a “shadow government” exists and that the real power in the country resides in that dark location, not in our elected government. The citizens instinctively know that our elected officials are really nothing more than the hired servants of the money masters and are beholden to them if they wish to retain their positions of power.

A quick look at the curtain which they hide behind, reveals one shadowy organization that represents the interests of these money masters, the ***International Swaps and Derivatives Association*** also known as ISDA.

The [officers and directors](#) of this organization include some of the largest hedge funds and most of the major banks in the world including the largest banks in the United States. One of the purposes of the ISDA is determine if a “credit event” is actually a default. If a “credit event” is declared to be a default, then Credit Default Swap (CDS) contracts come into play

.... the total value of Credit Default Swaps for 2011 is a staggering \$32.409 TRILLION dollars! That is \$32 TRILLION, with a “T”! When you cut through the smooth speak, more commonly the “crap”, “Credit Default Swaps” merely mean “**mutually agreed gifts**”, in spite of whatever crafty wording banksters use in an attempt to confuse or complicate the issue.

This reality is not difficult to determine, verify and to understand - its actually barely above the ***Sesame Street*** level of stuff. The truth is so very obvious and so simple, it is simply ridiculous that the mainstream media either cannot grasp it, or refuses to admit it. It’s also ridiculous and even disgraceful that most of our citizenry/slaves are so blinded by their faith in money, that they also seem to have a hard time getting it. Apparently the lure of the benefits package is too tempting to resist, for the many happy, but unwittingly enslaved idiots we love and call our neighbours.

Wisdom wrote in days of old, that "*the love of money is the root of all evil*". It did not proclaim that the love, or lust for money was the root of "some" of the evil, but of ALL of the evil. That same wisdom proclaims a warning that most of us in this day and age "have left their first love", meaning they have left, or abandoned their faith in their Creator. This is the one single thing that has "deceived almost the whole world". We have not all been deceived by false religions, or fiction legal systems, although many have, but almost the whole world has been blinded by the power of fiction money. The whole world worships money.

So easily has it been for evil to tempt us with money. The whole world lusts for money, and more money. The whole world displays an absolute blind faith in money - money is their first love, and banksters don't just know this, they depend upon it to control us. None of us will ever experience even the slightest amount of freedom, so long as money continues to be our first love. It is this very money that we lust for, that we worship, that enslaves us.

Banksters create money in the form of credit out of nothing - at zero cost - then they literally con, threaten and manipulate our governments into "borrowing" it. Our governments then of course go out and enjoy spending it, so they in turn must tax us to repay it. Then the cycle is repeated, over and over and over again, keeping us continually enslaved to taxes. Taxes to repay fiction loans to very real banksters that never produced or sold anything in the history of banking, yet somehow created sufficient wealth to "loan" hundreds of Billions of dollars to every country on the planet.

This is where you ask the **Sesame Street** question; "Which one of these things does not belong?" The answer to that question, is of course, banksters. The truth is, banksters are akin to hucksters, grifters, con-artists, hustlers, tricksters, and most notably, **magicians** - they are all about the **illusion** that their free-to-create-fiction-money, somehow takes on extreme but inexplicable value, simply upon and because they "loan" it to you or to me, or to our governments. That illusion, and only that illusion, is what has enslaved literally Billions of people on this planet. Exposing that equally obvious, yet admittedly veiled **Sesame Street** illusion, is indeed the one and only truth that shall set you free.

You are the slave of the one you worship. If you lust for money, you are money's slave. If, like almost the whole world, you have blind faith in money, you are money's slave. If you love your Creator and have faith in His words that the lust for money is the root of all evil, then you will be worshipping your Creator.

Even if you wish to be an Atheist, the same **Sesame Street** level truth about banksters, is still the only truth that can set you free from enslavement through taxation. And if there remains anyone that still holds even a tiny element of faith in the banksters' debt money, please explain what they produced or sold that enabled them to have so much wealth that the entire world of real producers finds itself in massive debt to them? (*To help with your answer, you may request a copy of a previous article wherein we clearly establish that every country in the world is in massive public debt - and all to the non-producers called banks.*)

We hope you will investigate these issues and satisfy yourselves as to what you will choose. Will you choose to go along with the status-quo, with the crowd that holds a blind faith in the illusion of money, or will you choose to share this truth and to do everything you can to help expose this illusion that enslaves so many of our brothers?

May the fullness of our Father's peace and joy be upon you on this most wonderful day He has blessed us with!
