

# LAWFUL REBELLION FOR A PEACEFUL TOMORROW

## The mass media won't tell you that:

- Our Police Forces, Schools, Councils, Hospitals and even Government are actually Private Corporations traded for the profit of their shareholders.
- Penalty Charge Notices and Council Tax Demand Notices are UNLAWFUL demands for money.
- Our 'Money' is worthless and backed by nothing more than a promise and our belief in that promise.

The people of the lands known as ENGLAND, WALES, SCOTLAND and CORNWALL are coming together AS ONE and realising what they have always known: We don't need government and we don't need to be told what is right and what is wrong!

We the people are SICK of unaccountable corporate government and have decided that now is the time to take peaceful, lawful action to remove our consent to be governed.

## Based upon Article 61 of the Magna Carta: **LAWFUL REBELLION**

John Harris, founder of TPUC and tens of thousands more have declared lawful rebellion by the sending two sworn affidavits – the most powerful statement in law – to remove their consent to be governed and to peacefully hinder the progress of our tyrannical nanny state.

## Are you SICK of our Government?
